

Wednesday - 23 August 1950

1. Congressman Guill of Texas called to say that he had been informed that consideration was being given to locating the hydrogen bomb plant in his District in Texas, and would I know whether there was any truth to that report. I suggested that he call the General Manager of the Atomic Energy Commission.

2. Miss Boyer, of the office of Congressman Hoffman, informed me that the copy of the secret testimony given before the House Expenditures Committee in connection with the National Security Act of 1947 in regard to intelligence has been destroyed.
